Cooking instructions & storage tips:

To achieve the best quality, place your order straight in the fridge (apart from the focaccia) and consume it within the day of purchase. Alternatively, you could freeze the pasta and sauces straight away just remember to cook the pasta from frozen.

You could freeze almost all our products for up to 3 months, you will just have to add a few minutes to the suggested cooking time. For additional advice do not hesitate to contact us directly.

We prepare everything fresh daily, so the pasta might be a bit stuck together or to the greaseproof paper. If that happens, simply place the whole sheet into the water with the pasta and the paper will come off in about 30 seconds.

- Bring a pot of water to a boil and add salt to taste.
- In a separate pan heat the sauce.
- Add the pasta to the boiling water, mix gently and cook for 3-4 minutes. Plain pasta, like tagliatelle, will cook faster (1 minute) than filled pasta.
- To create a creamier sauce, add a touch of pasta water to the pan.
- Drain the pasta and mix it into the sauce.
- Keep mixing on medium heat for a minute and plate up!
